## TOILET & LAVATORY

- 
**1G**
1.0 GPF
Using only 1 gallon per flush, 1G toilets provide the most efficient flush in the industry.
- 
**TORNADO FLUSH®**
A state-of-the-art, hole-free rim design that offers dual-nozzle bowl cleansing, creating a centrifugal rinsing action that cleans the bowl more efficiently.
- 
**E+MAX®**
High performance, high-efficiency flushing technology using only 1.28 GPF with a 3" wide flush valve, large trapway, and extra-large siphon jet.
- 
**CEFIONTECT®**
Ultra-smooth ceramic glaze leaves nowhere for waste to cling.
- 
**UNIVERSAL HEIGHT**
Toilet height that allows for a more comfortable height position across a wide range of users.
- 
**SKIRTED DESIGN**
The trapway is concealed by smooth porcelain, making the toilet easier to clean.
- 
**WATER SAVING**
Water efficient toilets designed with 1.28 gallons per flush or less.

## WASHLET® +

## EFV & AUTO FAUCET

- 
**ECOPOWER®**
EcoPower indicates sensor faucets and flush valves that are powered by flowing water.
- 
**AUTO FLUSH**
No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use.
- 
**SAFETY THERMO®**
Shape Memory Alloy (SMA) thermostatic valve that prevents a sudden, unwanted increase in water temperature.
- 
**SOFTFLOW**
This advanced water technology precisely balances individual streams of water to gently caress the skin with virtually no splash. The beautiful translucent water streams are soft, luxurious, and visually pleasing.

## CODES & STANDARDS

- 
**ADA**
Product complies with Americans with Disabilities Act guidelines.
- 
**WATERSENSE®**
Product that meets EPA standards for water efficiency and performance criteria.
- 
**CEC**
Product meets California Energy Commission requirements.
- 
**GREEN SEAL™**
Product meets Green Seal certification requirements.
- 
**CALGreen**
Product meets CalGreen Water Regulations for new construction and permitted remodel.

## AWARDS

- 
**REDDOT DESIGN AWARD**
An internationally renowned design award since 1955. Held at Design Zentrum Nordrhein Westfalen in Essen, Germany. Products that have been strictly examined and recognized by design experts against standards of innovativeness, functionality, quality, and so forth.
- 
**IF DESIGN AWARD**
An internationally renowned design award since 1953. It is held at iF International Forum design GmbH in Hannover, Germany. Products whose aesthetics, functionality, and innovativeness have been strictly examined and recognized by design experts.
- 
**GREEN GOOD DESIGN AWARD**
Hosted by the Chicago Athenaeum Museum of Architecture and Design and the European Centre for Architecture Art Design and Urban Studies in Ireland. A global environmental award that began in 2009 with the aim of reforming awareness through sustainable design.

# TOTO EVERYWHERE

**TOTO CAN TAKE CARE  
OF YOU EVERYWHERE.**

TOTO products can create beautiful, refreshing bathroom experiences in any situation. We design everything from urinals to hand dryers, so even a football stadium or an airport restroom can be a peaceful, inspiring escape.

We're known for consistent high-performance design and a beautiful, global aesthetic in all our products, so wherever you find TOTO you can experience the same reliability, value and style.

In today's fast-paced world, the need for superior performance and reliability means everything. And when it comes to busy commercial buildings, TOTO products are the only choice. We design world-class, eco-friendly plumbing products that help you save water and money without sacrificing an ounce of performance.

**CERTIFICATION & COMPLIANCE**

TOTO offers a full range of bathroom products that can help professionals in the commercial industry earn LEED points toward certification.

LEED is an internationally recognized green building certification system that provides third-party verification for a building or community. To get maximum LEED points, a new or existing building must reach specified water-usage reduction percentages. The more usage reductions, the more LEED points are earned.

**THE AMERICANS WITH DISABILITIES ACT (ADA)**

The Americans with Disabilities Act (ADA) was enacted in 1990 to establish design codes to serve people of all ages and abilities. A core principle behind TOTO Total Design, ADA standards consider the needs of everyone without additional adaptation or specialization, optimizing the bathroom experience for all generations in the family home.

By innovating ergonomics and accessibility, and combining them with our global design aesthetic, we give everyone everything that’s great about TOTO.

**ENVIRONMENTAL RESPONSIBILITY**

TOTO plays a significant role in leading the sustainability charge in our industry. In fact, our active role in leading policy and certification organizations demonstrates how we go beyond products or practices to help ensure environmental responsibility across all company activities.

- TOTO is the only plumbing manufacturer to receive the EPA’s Water Efficiency Leader Award
- TOTO was the first plumbing products manufacturer to have employees become sustainability experts by gaining LEED Accredited Professional status
- TOTO was the first major plumbing products manufacturer to join the United States Green Building Council (USGBC)
- TOTO was the first plumbing products manufacturer to develop third-party verified LCA Transparency Reports for bath products.

## 1G® TOILETS 1.0 GPF

TOTO's 1G toilets are a perfect solution to help owners and managers of hospitality and multi-family housing properties address their water conservation challenges. The powerful, yet quiet 1G system offers a 35 percent savings over 1.6 GPF toilets — a substantial savings without wavering on our renowned performance.

Reduces water use by 35% or more on average over a standard 1.6 GPF toilet

# COMMERCIAL TOILETS, URINALS & FLUSH VALVES

Innovation & Technology Highlights

## THE TOTO ADVANTAGE

- Thorough and extensive testing to ensure balanced flushing
- HETs use 1.28 GPF
- HEUs use as little as 0.125 GPF
- TOTO toilet and urinal fixtures are designed for efficient operation, ensuring the highest performance with the lowest consumption levels.

## CEFIONTECT®

- Extraordinarily smooth glaze prevents particulates from adhering to ceramic surfaces
- CEFIONTECT keeps surfaces cleaner, longer
- Less cleaning means less water use and fewer chemicals in the environment

## ECOPOWER® FLUSH VALVES

- Hydroelectric turbine uses water to create power
- ECOPOWER flush valves provide maximum performance in high-traffic commercial spaces
- Self-powering eliminates costs of installing electrical supplies and wiring
- No routine battery replacement means less maintenance costs

# THE POWER OF RECLAIMED WATER

Innovation & Technology Highlights

## COMMITTED TO SAVING WATER DROP BY DROP.

Water conservation extends far beyond the amount we use. Reclaimed water aims to reduce the amount of potable water used in our toilet systems. Recycling water already used for toilets conserves our precious, finite sources of fresh water.

### ECOPOWER EXPOSED TOILET FLUSH VALVE

TET1UBX - 1.0 GPF  
TET1LBX - 1.28 GPF

- ▶ Designed with robust materials necessary for reclaimed water use
- ▶ Self-powered hydroelectric flush valve system
- ▶ No minimum daily usage requirement
- ▶ Durable chrome plated body with tamperproof screws and solid bronze valve body
- ▶ Self-cleaning piston valve with 360° filter screen
- ▶ Neutral rough-in and adjustable tail piece connection
- ▶ True mechanical flush override
- ▶ Smart sensor with self-adjusting detection range
- ▶ 6 second detection time to prevent ghost flushing
- ▶ For toilet with 1-1/2" top spud inlet
- ▶ Exposed flush valve with 1" angle stop and 1-1/2" vacuum breaker set
- ▶ Contributes to earning credits in LEED®
- ▶ Protects trap seal with a maintenance flush if not used in a 24 hr period

Product Shown: Helix® ECOPOWER® Faucet

# COMMERCIAL ECOPOWER® FAUCETS

Innovation & Technology Highlights

ECOPOWER harnesses the energy of running water to power TOTO smart-sensor faucets or flush valves' electronics, replenishing them with every use. No minimum daily usage requirement, which translates into **reduced electricity use**, lower maintenance costs, and better ecology.

## ELECTRICITY

The water-driven turbine creates electrical power that is stored and ultimately transmitted to the sensor for use.

## ECOPOWER ADVANTAGE

- ▶ Sustainably engineered to require no external electricity source
- ▶ Hydropower system needs no routine battery replacement which lowers maintenance costs
- ▶ Strategically placed sensor ensures instantaneous water response, minimizing water wastage
- ▶ Hands-free operation reduces the chance of spreading contaminants

## TOTO COMMERCIAL PERFORMANCE

**A WIN-WIN.** Unlike other sensor faucets, ECOPOWER faucets use hydropower to operate the sensor. The flow of water, which meets the most rigorous water saving standards, spins the high-efficiency turbine to both create and store power for operation. TOTO's proprietary sensor technology has been perfected over the past 15 years.

# COMMERCIAL LAVATORIES

Innovation & Technology Highlights

TOTO lavatories deliver the ideal combination of design and functionality. Available in a variety of styles from undercounter to self-rimming, our lavatories offer comfortable use for everyone, regardless of age or physical ability. They're the perfect choice for any commercial space, from hotels to public facilities.

Product shown:  
Rectangle Undercounter Lavatory; LT1535G

**ADA  
COMPLIANT**

The Americans with Disabilities Act (ADA) was enacted in 1990 to establish design codes to serve people of all ages and abilities. A core principle behind TOTO Total Design, ADA standards consider the needs of everyone, no matter their needs, without additional adaptation or specialization, optimizing the bathroom experience for all generations.

# COMMERCIAL CLEAN DRY® HAND DRYERS

Innovation & Technology Highlights

TOTO's Clean Dry hand dryers offer high-speed air for an effective, economical solution. Infrared sensor-operated, Clean Dry offers innovative air wicking technology that dries the user's hands in under 12 seconds.

**WASTE  
REDUCTION**

**LOW  
NOISE**

## TOTO COMMERCIAL PERFORMANCE

Clean Dry hand dryers reduce energy use by 25 percent over traditional electronic hand dryers that sometimes fail to dry hands completely. Further, Clean Dry dryers are extremely quiet during operation with a low decibel rating between 55 and 62 dB

## DECIBEL RATING

## TOTO HAND DRYER BENEFITS

- ▶ Unobtrusive designs that blend into any bathroom décor
- ▶ Environmentally friendly - no paper waste
- ▶ Eliminates the cost of providing paper towels, including the man-power needed to restock paper and discard trash
- ▶ Double-sided fan simultaneously dries hands from both sides, greatly reducing drying time\*
- ▶ Washable trays to eliminate water splashing and prevent slip and fall accidents
- ▶ Vandal resistant designs

### ANALYTICS

Get powerful data and analytics at your fingertips. TOTO's powerful fixtures, combined with IoT driven data empowers you to act on real-time analytics to help improve maintenance and hygiene — saving time and increasing customer satisfaction.

Finally, with TOTO's IoT Smart Restroom, you will fully understand the use of space for future design and plumbing infrastructure improvements.

## ECOPOWER FLUSH VALVES

This self-powered hydroelectric flush valve system generates its own power through turning an internal turbine during every flush. With eco power flush valves, you can rest assured your plumbing fixtures will work -- even during a power outage.

# ECOPOWER® FLUSH VALVES

Hands-free ECOPOWER smart-sensor flush valves for toilet and urinal are energy-saving, durable, and provide maximum performance in even the most demanding, high-traffic public restrooms. This self-powered hydroelectric flush valve system generates its power during use; every time water turns the internal turbine.
