Value Standard Efficiency Series

ALL MODELS A/C READY

KHM

KLR

KLF

BCL

BFL

HTL

The Premium Series offers innovative design to ensure the highest heating efficiency. The KHM can be installed in a Highboy or Multi-Position arrangement with front flue. The KLF/KLR offer lowboy front/rear flue models. Each model offers (3) firing rates for a complete range of capacities and two output sizes.

- AFUE Up to 88%
- High Grade Stainless Steel Combustion Chamber
- ECM Motor

The Standard Series provides a value priced solution with ease of installation and operation in mind. The HTL is an upflow, front flue highboy model and the BFL/BCL are lowboy front/rear flue models. Each model offers (3) firing rates for a complete range of capacities and two output sizes.

- AFUE Up to 85%
- Up to B20 Biodiesel Certified
- High Grade Steel Refractory Combustion Chamber
