ECHO COLOR SHADE CARD

THIN FILM CERAMIC COATING

About The Echo Finish:

Isenberg offers a striking range of 20 unique finishes applicable on all Isenberg Klassiker kitchen fixtures using advanced resin technology.

Combining Isenberg's style and minimalism with the versatility of the Echo color guide opens design possibilities that have not been seen in the decorative plumbing industry before.

The Echo color finishes are environmentally friendly, much more so than traditional finishes based on chrome and nickel chemical processes. The finishes are oven cured, corrosion-proof and ceramic based. They are resistant to scratching, chipping and abrasive solvents.
