*To create, one  
must first question  
everything.* — Eileen Gray, architect and artist

In 1979, in the heart of San Francisco, two European visionaries — Anthony Pontin and Norman Bell — embraced the revolutionary era's zeitgeist: to challenge convention. In place of the white and chrome that commonly characterized bath fixtures, they introduced a new approach to plumbing design that celebrated the creative melting pot of their adoptive city, and America. They proposed beautiful, handcrafted products that blended superior quality and expressive materials with varying styles that spanned generations and ideologies. With this visionary audacity, KALLISTA was founded, and American Contemporary was born.

# *American Contemporary*

More than a manifesto, American Contemporary is an eclectic, ever-evolving artistic style reflective of the country's multicultural character. It's the aesthetic expression of a dynamic discourse between generations of artists who have come here from all over the world to assert their individuality and test their philosophies without censure.

Though its origins stretch back beyond recorded history, American Contemporary tangibly stamped its philosophy on early 20th-century New York City, where the rise of Neo-Renaissance buildings signaled the intentional intersection of past and future, Old and New Worlds. This movement's bold idealism opened the creative floodgates for similarly enlightened expressions, such as Art Deco and De Stijl.

Though chronological in their arrival, the divergent movements are not connected by a linear thread. Rather, they weave the increasingly complex, exponential web that differentiates American Contemporary style. Today, it intertwines everything from Minimalism to Art Deco and beyond to introduce innovative artistic statements with infinite possibilities.

# *Our Designs*

American Contemporary is the vital thread that binds KALLISTA designs. Our original utilitarian artworks combine European inspiration with traditional American design and emerging global influences to celebrate our vibrant creative melting pot.

Just as each corner of the United States is diverse, so too is each KALLISTA design. Some pay singular tribute to the idiosyncratic characters of the country's great cities and the visionaries who shaped them. Others intentionally converge classic aesthetics with present-day innovations. All perfectly embody this tension: They are contemporary yet timeless in design, and each stirs a unique emotion. Their uncommon contours convey a mood, an aesthetic, and a distinct ethos.

Together, KALLISTA designs speak a cohesive, refined, human design language that replaces dogma with a progressive commitment to the art of personal expression – and the ambition to ignite desire.

# *Neo-Renaissance*

# *Neo-Renaissance*

Emery Roth, 65 Central Park West, 1926, New York City

## Harmony, Grandeur, and Geometry

One of nine landmark buildings on Central Park West designed by famed architect Emery Roth, 65 Central Park West epitomizes its era, yet remains a timeless design icon. Its formation coincided with the creation of the Eighth Avenue subway line, and its goal — as one of the area's first luxury apartment buildings — was to signal a new superlative lifestyle to the city's upper class, who had previously resided primarily in standalone homes. Roth achieved this remit by marrying harmonious, humanist Neo-Renaissance philosophies with vertical lines, symmetric geometries, and stylized motifs at an impressive scale.

The iconic structure and its clean, classical silhouette continue to distinguish the city's skyline and embody the sophisticated, forward-looking era that inspired our Central Park West™ Collection by Robert A.M. Stern Architects.

BANDEAU RAIN SHOWERHEAD, WHITE CARRARA WITH  
CHANDELIER MOUNT IN BRUSHED FRENCH GOLD

# Bandeau

by KALLISTA

BANDEAU SHOWERHEAD,  
WHITE CARRARA IN BRUSHED  
FRENCH GOLD

As the first introduction of Kallista's innovative Decorative Showering category, Bandeau is the embodiment of luxury for the bathroom. Drawing inspiration from the ornate headdress of ancient Egyptian deities, Bandeau showcases two designs—a rain showerhead and wall-mount shower head—both featuring distinctive elliptical forms and luxurious adornment options.

BELLIS NOBLE SINK  
FAUCET, CROSS HANDLES  
IN UNLACQUERED BRASS

Traditional styling, considered details, and radiant finishes reveal the inspiration behind our Bellis collection: the classical opulence of 1920s interior design in America. Pairing European traditions with future-looking optimism, its versatile form elevates myriad environments.

UNLACQUERED BRASS

With its distinct texture and one-of-a-kind hue, our Unlacquered Brass finish transmits a tangible patina effect that defines each fixture as truly unique – and adds warmth and tactility to both modern and traditional interiors.

Frank Stella, "Black Study I," 1968, New York  
©2023 Frank Stella/Artists Rights Society (ARS), New York

## **Precision, Geometry, and Materiality**

In contrast to the romantic philosophies of the art movements that preceded it, Minimalism championed the literal physicality of an artwork: its scale, placement, materials, and weight. Paired with extreme geometric abstraction, Minimalist artworks claim to pose a narrative devoid of symbolic meaning. As Frank Stella stated of his work, “What you see is what you see.” Among the defining artists of the Minimalism movement, Stella proposed pictures as objects, rather than representations of something.

Stella’s hypothesis reached its height in his Black Series I prints, Black Paintings, and subsequent Black Study series lithographs. With their uniform rectilinear stripes, the works possess an optical pattern that attempts to force all illusion out of them. Yet Stella himself admitted that the subtle appearance of the artist’s hand leaves space for interpretation — a conclusion corroborated by our elemental yet elegant One™ Collection.

ONE ARMORY SINK FAUCET, TALL SPOUT,  
LEVER HANDLES IN MATTE BLACK

# *One Armory*

ONE ARMORY SINK FAUCET,  
TALL SPOUT, LEVER  
HANDLES IN MATTE BLACK

A perfectly choreographed harmony of form and function, the Armory handle captures the poetics of motion with its machine-etched lines. The distinctive pattern elegantly unites subtle detail with dynamic texture.

GUISE SINGLE CONTROL SINK FAUCET,  
TALL SPOUT IN CHROME

# Guise

by KALLISTA

GUISE SINGLE CONTROL SINK  
FAUCET, TALL SPOUT IN CHROME

Refined geometry meets audacious engineering with Guise, a collection reimagining minimalist forms as functional design in the guise of sculpture: a powerful statement of artistic invention and technique.

GUISE VOLUME CONTROL & THERMOSTATIC TRIM  
IN POLISHED GRAPHITE

GUISE LARGE CONTEMPORARY AIR-INDUCTION RAIN SHOWERHEAD, SOFT MODERN SQUARE  
SHOWERHEAD WITH ARM, VOLUME CONTROL, TRANSFER, AND THERMOSTATIC TRIM WITH  
CONTEMPORARY WAND DUAL-FUNCTION HANDSHOWER IN POLISHED GRAPHITE

GUISE SINK FAUCET IN BRUSHED FRENCH GOLD WITH  
LIGHT DUSTY WAVE LEVER HANDLES

GUISE LEVER HANDLES, LIGHT DUSTY WAVE  
IN BRUSHED FRENCH GOLD

The art of Guise unfolds further with remarkable handle customizations that transform the core collection with a sense of warmth and tactility. Offered in artisanal enamelwork as well as entirely custom materials for larger projects, the individualized additions are a study in crystalline intricacy, introducing striking visual effects and translucent color in two guilloche patterns, wave and diamond.

GUISE WIDESPREAD SINK FAUCET, STANDARD SPOUT, LEVER HANDLES IN CHROME

# *De Stijl*

# *De Stijl*

Piet Mondrian, "Composition II With Red, Blue, and Yellow," 1930, Zurich ©2023 Mondrian/Holtzman Trust.

## **Minimalism, Abstraction, and Universality**

As a co-founder of the De Stijl movement, artist and philosopher Piet Mondrian believed deeply in the power of abstraction to communicate universal values and create universal beauty. Over time, his pursuit of this purist language condensed his artistic vocabulary to primary colors and straight lines. His painting "Composition II With Red, Blue, and Yellow" expresses this philosophy at the peak of its radical simplicity.

Rejecting all naturalistic and figurative forms, the work focuses solely on the interaction and balance of its rectangles and minimal color placement to paradigm-shifting ends — as underscored in our Grid® collection.

# Vir Stil

by Laura Kirar

VIR STIL SINK FAUCET IN  
POLISHED NICKEL

Vir Stil marries singular modern forms and intricate, intentional detail, honoring the defining details of the craft of living. Created in collaboration with acclaimed sculptor and product designer Laura Kirar, the collection combines clean, balanced forms with vertical fluting, celebrating design as functional art.

# Grid

by KALLISTA

GRID CUBE HANDLE  
IN MATTE BLACK

A tribute to the De Stijl movement, our Grid collection harnesses the visual impact of geometric lines and negative space, stripping away the confines of traditional design to expose the intrinsic beauty of simplicity.

GRID WALL-HUNG CONSOLE IN MATTE BLACK

GRID SINK FAUCET, 3D-PRINTED SPOUT IN MATTE BLACK

In traditional faucet design, form follows function. Our Grid collection is the opposite: Its aesthetic determined its manufacturing method, as 3D printing was the only possible way to move water through this minimal, geometric outline.

# *Art Deco*

# *Art Deco*

Eileen Gray, Screen, 1923, Paris ©Victoria and Albert Museum, London.

## **Geometric, Symmetric, and Decorative**

Perched on the cusp of tradition and modernity, the Art Deco movement operated on the principle that any object – no matter how humble its purpose – could be transformed into art through decorative application. This exceptional meeting of establishment and invention defines the influential oeuvre of Eileen Gray. Equally renowned for her architecture and furniture, Gray possessed an autograph style that played a seminal role in establishing Art Deco and evolving it toward Modernism.

Her series of iconic screens exemplify this quality with their geometric lines, symmetry, meticulous details, and striking silhouettes. With their considered balance of ornamentation and polished restraint, they serve as an artistic predecessor to and influence on our Per Se® collection.

Bezel

by CRISTINA Rubinetterie

BEZEL SINGLE CONTROL  
SINK FAUCET, BLUSH BRASS

Showcasing Kallista's first faceted soft square profile, the Bezel collection features an Art Deco-inspired silhouette and elevated natural stone adornments, tempered by classical details designed to stand the test of time.

GOLD FLAKE CRYSTAL HANDLES IN BRUSHED FRENCH GOLD

*Per Se*

by KALLISTA

PER SE GOLD FLAKE  
CRYSTAL HANDLES IN  
BRUSHED FRENCH GOLD

Featuring soft, symmetrical lines and a modern, fluid form that elevates everyday objects to an ornamental stature, our Per Se collection draws inspiration from Art Deco’s foundational principles. Its standalone statement quality also validates its own name, “per se,” which is Latin for “in itself.”

ARGILE FREESTANDING  
BATHTUB IN HONED WHITE

An archetypal example of American Contemporary style, our Argile Freestanding Bathtub places heritage craftsmanship in conversation with modern elegance. Its smooth, polished edges harmoniously contrast its tactile carved surface, which takes inspiration from handmade wood cuts and carved or tooled clay, to make an autograph statement.

# Finishes

Our range of artisan-inspired finishes transforms each of our faucets and accessories into one-of-a-kind showpieces with exceptional durability, shine, and dramatic tactility. Take your pick from living and powder-coated finishes, or opt for our recently introduced physical vapor deposition (PVD) finishes\*, which feature an advanced coating technique that bonds the finish to further enhance durability and color integrity, while resisting scratching, tarnishing, and corrosion.

A complex, multistep process prepares each of our fixtures for their finish: faucets with polished surfaces are buffed, while those with textured surfaces are brushed to ensure any rough surfaces from the casting process are removed. All parts also go through several salt, ultrasonic, and hot rinses to ensure their finish adheres properly. And once the finish is applied, each piece is hand inspected, assembled, and tested by a Kallista team member before undergoing a final six-step quality test.
