shower bases

ACQUABELLA

Welcome to **Acquabella**, where the combination of *natural minerals, science and artistry results* in design-savvy products that satisfy traditional, transitional and contemporary tastes. Bathroom tubs, sinks and shower bases that are beautiful, functional and durable.

Acquabella products *go beyond form and function with ingenuity, texture and geometric patterns* to create the unexpected. Rooted in a strong European design ethic, Acquabella's international designs bring the best of all worlds to customers' bathrooms.

THE MATERIAL AND PROCESS

made of mineral composite that consists of organic dolomitic limestone, a rock that is very hard and durable

ground materials are combined by a high grade bonding agent

mixture is then liquefied and poured into a mold that has been prepared with a thick coating

during the curing process, the two become chemically bonded

cast stone product is then hand finished

this formula is resistant to UV, stain, mold, mildew, and impact resistant

Acquabella is durable, easy to clean and maintain
